HEALTH AND SAFETY QUESTIONNAIRE

~We're Keeping It Clean, Safe and Healthy~

Welcome Back!

The health and safety of our patients is always a priority for us, and due to the increased concerns surrounding the coronavirus, we are expanding our already comprehensive health and safety protocols.

Although we sanitize all clinical surfaces and instruments before and after all clinical interactions, please remember to wash your hands before and after each visit. All patients, accompanying parents and care-givers will be asked to wear their mask and wash their hands upon arriving in the office.

We always have your health and safety in mind, and will follow the Center For Disease Control (CDC) guidelines to help us do this. Please answer the following questions:

- Yes___ No___ Do you feel ill, or do other members of your household feel ill?
- Yes___ No___ Have you overcome (more than 24 hours) a fever (more than 99.9°) or respiratory symptoms without fever-reducing medications but it is less than 14 days since symptoms first appeared?
- Yes___ No___ Have you returned from travel within the last 14 days to geographic areas of concern identified by the Center For Disease Control (CDC)?
- Yes___ No___ Have you or members of your household been exposed to individuals with COVD-19 within the last 14 days?
- _____ If any of the above four questions change to a "yes" you must let us know immediately.

*Name:*_____ *Date:*_____

Thank You We look forward to helping you maintain optimal visual health and function

Sincerely: The Staff at the San Diego Center For Vision Care
